

# **CLOUD SERVICES PROFILE**

---

## OpenStack Cloud & Kubernetes Services

Netweb's OpenStack cloud platform offers the true production-grade solution you need. Our OpenStack Cloud & Kubernetes solution provides:

## HPC & AI on Cloud

Optimize your HPC and AI workload on the cloud. Reduce the time to results by securing your high-performing computing tasks on Netweb cloud. Our HPC and AI on cloud solutions include:

### HPC on Cloud:

Scale up your on-premises HPC cluster just when you need it.

### Cloud Native:

Run all of your HPC workloads in the cloud and users gain access to virtually unlimited capacity.

### Workload Management:

Optimize utilization and efficiency, and simplify administration for HPC clusters, clouds, and supercomputers.

### End-to-End ML Solutions:

We offer flexible, cost-effective solutions for data processing and machine learning tasks, to leverage AI without extensive hardware infrastructure.

### Rapid Time to the Market:

Our AI solutions ensures that we deliver the result in quick time to reap maximum advantages out of deployment.

### Extensive Experience:

We possess extensive experience and deep domain know-how in AI/ML solution development.

## Other Services

With Netweb as your trusted advisor, we help you design, develop, and deploy the right cloud strategy for your digital transformation. Our other services include:

### Strategic Consultation:

We show you which aspects you need to consider, when developing your cloud strategy.

### Migration/ Implementation:

Our experts can develop the perfect implementation plan for your requirements.

### Optimization Advice:

Optimize various parameters – performance, security, automation, and costs. our experts can draw up a seamless path from the present to future architecture.

### Technical Support:

Our support services take the lead to manage issue resolution in your cloud solution environment so you can focus on your customers and business.
